

## 10 Dead Men

There are two gimmicks in this U.K. import: One, the promised body count of the title, and two, the revenge-obsessed hero (Brendan Carr from *Band of Brothers*) who never speaks. In fact, the entire film seems to have been shot without sound and later dubbed (an annoying money-saving effort, undoubtedly), with copious narration by Doug Bradley (*Hellraiser's* Pinhead). The level of cruelty in the many bloody fight scenes is as high as the body count.

**Shelf Talk:** *10 Dead Men* has none of the wit of its obvious models (*Lock, Stock and Two Smoking Barrels*), but the action is plentiful, and fight fans are already visiting the film's MySpace page for release details. MTI will continue that viral thread with a PR push on fan sites. —*Buzz McClain*
