BY THE WILL OF GENGHIS KHAN is a vivid, multidimensional story of Temujin, who would be known as Genghis Khan, the ruthless founder of the largest contiguous empire in history, the Mongol Empire... Three childhood friends and sworn brothers - one was initiated into the sacrament and grew up to be a great shaman while the other two followed the path of war and the nation recognized them as leaders. But only one of them was to become the ruler of the land. He was chosen by the Eternal Blue Sky, and the Sky itself put him on trial. Love for a woman will make him a warrior. Allegiance to the law will lead him to fratricide. Striving for peace will force him to start war. The council of nine tribes speaking nine tongues proclaimed him the sovereign and gave him the name of an ancient deity, Genghis Khan. His warriors would reach cities of the West, seas of the South, and mountains of the North...
